

## EU Declaration of Conformity

We declare under our sole responsibility that the products to which the present declaration relates comply with the essential requirements of the given directive(s) and have been evaluated based on the listed standard(s).

Manufacturer	Faserplast AG
Description	Drink barrels
Typ(s)	15 L, 30 L, 60 L, 100 L, 150 L, 200 L, 300 L, 500 L

We hereby declare that the materials for the above products used in contact with ALL FOODSTUFFS (simulants A, B, D2) for any long term storages at room temperature or below (above 6 months), including heating up to 70°C for up to 2 hours, or heating up to 100°C for up to 15 minutes are complying with the following European Law:

**Regulation(s)** Regulation EC No 1935/2004; Regulation EC NO 1935/2004: Art. 3; Art. 11 (par. 5);  
Art. 15; Art. 17  
Regulation EC No 1895/2005 (epoxy derivate)  
Regulation EC No 2023/2006 (GMP)  
Regulation EC No 10/2011 and amendments

The above mentioned material is produced with the following raw materials or substances:  
POLIETHYLENE

The materials contain the following substances subjected to restrictions in accordance with the laws above mentioned:

FCM N	NAME	Rif. N.	Cas No.	SML (mg/kg)
356	1-esene	188220	0000592-41-6-1	3
433	3-(3,5-di-terz-butil-4-Hydroxyphenyl)-octadexyl propionate	68320	0002082-79-3	6

The material contains the following substances regulated by Regulations 1333/2008, 1334/2008 and amendments:

FCM N	NAME	Rif. N.	E Number	SML (mg/kg)
21	Carbonic acis, salts	42500	E170	---

It is the responsibility of the user of the material intended to come in contact with foodstuff, to communicate to our company possible restrictions regarding the components (presence of additive and aromas) of the food that must be packed.

Food Contact compliance tests:

Simulant	Condition test
Acetic acid 3% W/V (SIM. B)	10 days at 40° C (overall migration)
Ethanol 10% V/V (SIM. A)	10 days at 40° C (overall migration)
Rectified Olive Oil (SIM. D2)	10 days at 40° C (overall migration)
Acetic acid 3% W/V (SIM. B)	10 days at 60° C (specific migration)
Ethanol 10% V/V (SIM. A)	10 days at 60° C (specific migration)
Rectified Olive Oil (SIM. D2)	10 days at 60° C (specific migration)

The overall migration limits and all the other specific restrictions whose the monomers or/and the additives are subjected to, including metals and primary aromatic amines Annex II of Reg. (UE) No 10/2011, are respected in accordance with the usage conditions above mentioned.

The assertion is supported by analytical proves, carried out in accordance with the Regulation (EU) No 10/2011 or based on calculations carried out considering the content of the substances subjected to migration limits. The computations have been arranged assuming that 1 kg of food comes in contact with 6 dm<sup>2</sup> of packaging material.

This declaration is valid after the below date, and it will be previously replaced in case of changes in the production/formulation of the material, or if the law references in point 1 will be revised and updated so that a new compliance checking is required.

**Place and date** Rickenbach, 01.10.2021 **Signature/name/function**
